New Edge Sharpening
strives to give you a
finished Edge Sharper
than New. Over the
past 25 years my wife,
(Paula) and I have
achieved a sharper edge

than ever. I use one or up to 5 different
machines on scissors. I have three different,
"Twice As Sharp" Machines. A Right
Handed, Left Handed and a OOKAMI GOLD
for the very high end scissors. I use 1 or up
to 3 different machine and hones for clipper
blades. I even have a 16 inch hone with
super fine grit for nothing but the Ceramic
Blades. And then for Knives, I start with a
very fine grit on a 30 inch belt sander by
Foley that also has a 10 inch Hone. That's
only the beginning, I then move to a Paper
Grinder for an Edge that will shave the
hair right off your arm. I have spent my life
striving to reach the highest percentage of
return customers ever heard of. How?

By giving you more than anyone else.
